

## CLIENT SUPPORT CONTRACT (Bespoke)

**W**elcome to the Brant Client Support Contract.

### **The purpose of this contract?**

The support of our Clients' commercial interests. Offering a 'Support Contract' is the next step in supporting our Clients with their commercial issues, dispute avoidance and dispute management. We have used our extensive experience to formulate two Client Support Contracts which we believe will provide your business with a sense of reassurance on commercial issues. However, Brant recognise that every business is different and may therefore require a completely different level of support.

With this Bespoke support Contract, Brant will attend a meeting to discuss your requirements and find the level of support that you are looking for – a truly unique partnership!

### **Why enter a contract?**

With the Covid-19 global pandemic, and the resultant unprecedented recession, it is essential to protect against the commercial risks that are ever prevalent within our industry, but particularly so currently. Whether you are a Developer, Employer, Contractor, Sub-Contractor, Consultant or Lender, the prospect of a dispute at best means the loss of valuable time and money. At worse, it could threaten the future of your business.

### **What are the benefits**

Our team invests the time to get to know the commercial/contractual side of your business, so that our advice matches your needs and your approach. Getting contracts right, from the start of a project, can help to avoid a costly dispute later on. However, if a dispute becomes unavoidable, we will do our utmost to get the result you need.

### **Is this just another Insurance?**

No, this is more of a partnership. It is a peace of mind that your business has immediate access to expert commercial consultants that can advise you throughout the whole construction process, from initial enquiry through to Final account, and if a dispute becomes unavoidable, the partnership could put you in a stronger position to promote or defend such an occurrence.

### **How do I sign up?**

To discuss your requirements for a bespoke Client Support Contract, please call us on 01733 568687 or use our enquiry form on our contact page.
